How Vallandigham is to get Home.

Inquiry is sometimes made as to how Vallandigham, in case of his election as Governor, is to get to Columbus. The chances of the loyal people of Ohio ma king him their Chief Magistrate are so exceedingly small, that this question is hardly worth considering, yet it seems that his INSTRUCTIONS IN MUSIC. friends have actually given it serious tho't, and the result of their deliberations, we understand, was announced by Mr. Cox, in his speech here on Wednesday. He said that in case their state ticket was suctime and be installed as Lieutenant Governor, when, from the state house steps, he would call three times for Valiandigham, the governor elect, and if he did not come, he (Pugh) as acting governor, would call out the state militia, and at the head of two hundred thousand men, march to the Canada line and escort Val. to the capital. That is the programme, as announced by Cox. We understand it was received with

vagaries. However ridiculous such stuff may appear to reasoning men, it is just the pabulum for the mass of those who follow the copperhead demagogues now scattering the seeds of riot and bloodshed through the state. Supple performers like Cox know very well what kind of tricks take best with the material they rely on for support.

How Vallandigham is to get Home.

Inquiry is sometimes made as to how Vallandigham, in case of his election as Governor, is to get to Columbus. The chances of the loyal people of Onio ma king him their Chief Magistrate are so exceedingly small, that this question is hardly worth considering, yet it seems that his friends have actually given it serious tho't, and the result of their deliberations, we understand, was announced by Mr. Cox, in his speech here on Wednesday. He said that in case their state ticket was sad cessful, Pugh would appear at the proper time and be installed as Lieutenant Governor, when, from the state house steps, he would call toree times for Valiandigham, the governor elect, and if he did not come he (Pugh) as acting governor, would call out the state militia, and at the head of two handred thousand men, march to the Canada line and escort Val. to the capital. That is the programme, as aunounced by Cox. We understand it was received with about the same applause as met all his

the past. In November of last year wawere mostly at Helena and Memphis. The enemy lay in force behind intrenchments of his own choice at the Tallabatchie, boastful of his power and strength, defiant and insulting in his tone. In combination with our fellow soldiers of the army of the Tennessee, we advanced directly against him, whilst a force from Helena thrust latterally at Grenada, made him leave in haste and confusion, and fall behind the Yalabusha and the Yazoo, with Vicksburg and its frowning hills and batteries as his impregnable stronghold. It then became our part of the grand drama to strike this stronghold, and we moved against it with expedi-

power of the bravest men, and we failed to carry by a dash the line of bluffs and forts that had been prepared with consummate art, and defended by a brave and skillful enemy. Not daunted, we drew off to prepare anew for a more powerful blow. Time offering the opportunity, instead of awaiting in idleness, weturned against Arkansas Post, and by a quick and skillful movement we reduced and captured Fort Bindman, with all its garrison and material of war. Then returning to the original purpose of the campaign, we were again at Young's Point, and began that series of preparations which has resulted in final success. The labor and toil of those dark and gloomy months were not spent in vain. The gunboat fleet, commanded by Admiral Porter, explored every bayou and creek of the network of streams that afforded any chance of reaching the land above Vicksburg; and it was our pleasing task, when

n March last, during one of these expeditions, when the safety of our gunboat fleet was threatened, to hasten through water and swamp, and canebrake and storm, to its assistance; and we now know that to the labor and energy then displayed, the country owes to us, in a great measure, the enfety of the ironclads, which have done so much to open the Mississippi. At last, when it was made apparent that

nature and art had made Vicksburg impregnable from the river on the north side. and our general had resolved to reach it from the south, we aided much in passing the necessary fleet of boats below Vicksburg; and when the first battle was to begin at Grand Gulf, we had the important but ungrateful task of deceiving our enemy by a feigned attack on Haines' Bluff. That feint or diversion was perfectly successful, and for weeks we succeeded admirably in confusing and deceiving the enemy as to our purposes, and contributed largely therecommittees that the conventions for the election of by in gaining a successful foothold on land below Vicksburg. Then by a rapid march we overtook our comrades, and with them swept the enemy before us to Jackson, and back again to Vicksburg, reaching, after unexampled skill, the very points we had aimed to secure in December.

Of the siege of Vicksburg, it ill becomes

your commander now to speak. That the 5th army corps performed its full share of ever bear, in proud remembrance, of that great historical event, the appropriate mark. Your commander, in thus briefly reciting the events of the past eaven months, good reasons to flatter himself that in producing this grand result, he has borne a part. In after years it will be the subject of pride to himself and children, and we know how our fellow countryman were wild with joy when the telegraph spread the good tidings that the Mississippi was again made free by the courage and perseverance more every American could steam up and down this Majestic river without fearing the hissing shell, or whizzing bullet of a

foe from its ambushed shores. Let the magnificent result give to all new hope and assurance that by discipline, by patient industry, by courage and confidence in our country and cause, the United States of America will, instead of sinking into and become what Washington designed it, the first and best regulated government or W. For the Januaville Daily Gazette. Attention Girls!

In this time of our country's peril, when the heart is heavy and the eye dim, because of the shadow cast o'er us by the "Angel of Death," (who seems never to go but dwells with us;) in this the hour of trial many are the appeals to the patriotism of our fathers and mothers, and our brothers. Where ere they? Let the vacant chair, the aching void in many a heart, the tented field, and, alas! the southern plains strewn with brave youth, respond. All these have a work to do, a duty to perform. Is there nothing for us? Are we indeed the drones they think us? Are all our affections centered on a moustache, our sympathies on a novel, our industry on dressing, that we have no thought for our soldiers, no sympathy for their suffering, no time to spend in labor for their comfort? Shall we be content to sit with idle hands, but spectators of this great struggle between right and wrong, truth and error? I trust not. for indeed there is a duty, however humble,

And remembering this, can you turn a deaf ear to the eloquent appeals of such women as Mrs. Colt? Can you look with indifference upon the brave example of "Mother Bickerdyke"?

No indeed! I know that your hearts are warm, and you have but to understand the great need of our country and you are ready to add your mite. So I ask-you to come, each week, to the "Sanitary Rooms," where you will be sure of a hearty welcome and plenty of work. MILWAUKEE, Aug. 11. Special to Chicago Tribune.—The near approach of the Union state convention has given rise to the usual speculations in regard to the ticket. Several sample tickets are proposed in leading newspapers, all of which will probably differ more or less from the one chosen.

Among the candidates urged for governor, Gov. Salomon and Gen. H. E. Paine are the most prominent. The nomination of either of these gentlemen cannot fail to meet with the satisfaction of all loyal men, and will insure an overwhelming trinmph over the enemies of the government.

The noble and patriotic career of Gen. Pains points him out as a fit candidate for the highest honor which our state can give. ber of soldiers by selling wines and whisky | The general has recovered so far as to be able to take his daily ride, and expresses his determination to return to his brigade at the earliest day possible. Serinopieto, Aug. 11. Special to Chicago Tribune.—Deputy United States Marshal Hicks, under Provost Marshal Fry, of Morgan county, errived in this city yesterday with an order from Capt. Fry for troops to enforce the arrest of deserters in that county. A number of deserters are at large, and encouraged by the K. G. C.'s to dely the marshal and his deputies.

The knights of the golden circle at Laomie appear to have gone into a permanent near Staley's farm, four miles southwest of Laomie. This morning a discharge ed or furloughed soldier attempted to pass that way on horseback, when he was seized by several men who appeared to be standing guard. They pulled him from his norse and cried "kill him;" "he is nothing but a d-d abolitionist," others said no, give him a good beating." They then beat and kicked him, and took a revolver from him, and discharged four of the barrels. He knew one of the men to be named Burrells. They said they would allew no d-d abolitionist to pass that way. After the revolvers were discharged some 35 armed and mounted men rode up and oined the party. They had been in the esting at that place every Saturabit of m day for drill.

Fourteen deserters were brought in to day from the 5th, or Peoria district, and ten from the 9th, or Fulton district. Buring the mouth of July 500 deserters

have been returned to the army from various parts of the state.

CAIRO, Aug. 11, 1863. Special to the Tribune.—Captain Evans, Deputy Provest Marshal of Williamson and Saline counties, reported here last evening, with seventy-eight deserters from the 128th and 9th Illinois regiments, as the resalt of two day's scouring over the counties named. They were delivered to the military authorities here, and the captors returned to hunt up more. At this rate these dispersed regiments bid fair soon to be in the field in full force. Their men would many of them voluntarily give themselves up could they to merged up into the 31st egiment or into cavairy regiments.

It was in search of these men that Marshal Phillips and Evans were fired upon lately, and it is more than suspected that some of the men among these here were engaged in said onslanght. Three of the prisoners were released, as it was shown that her were not deserters. The remainder will soon be forwarded south.

Speculations are rife as to its object, but the most prevalent opinion is that news has been received by Gen. Halleck and others, and that the rebel leaders are willing to offer propositions for peace, believing their armies demoralized and broken up. The same correspondent hints that several cabinet meetings have been held in relation to the French policy in Mexico, and it appears to have been decided that a permanent occupation by the French shall not be permitted, and that an entire abandonment of Napoleon's policy will be demanded, even if at the hazard of war.

DEATH OF JOHN R. BEALE .- Intelligence has been received that John R. Beale, of this city, died in Hartford, Ct., yesterday. Mr. Beale has been for many years an active business man, a good citizen and a dreen fruit in good supply and drooping. Dried fruit kind neighbor. The circumstances at | Quiet. Engagements were made at 47/20 for corn and the affliction which his death at any time | 5c for wheat to Buffalo. would impose, and quicken the sympathy which his loss is well calculated to excite.

FESTIVAL OF BELOTY .- Mr. Meson, who has a class of about two hundred juvenile singers in this place, contemplates giving a concert on Tuesday evening of next week. \$2,00m\$3,00. Sales: The class is practicing the "Festival of Beauty and Tairy Land," a beautiful contata, which has been given in eastern cities with great succes, very favorable notices of it appearing in eastern journals. We an ticipate a rich treat. And the fact that the performers are all in our own city and belong mostly to our schools will add to the head, and the only sale reported to day was 100 bbls interest of our citizens in the entertainment.

BAILEY & Co.'s MENAGERIE AND CIRCUS. -Yesterday was a lively day in Janesville. A larger number of persons were out to "see the show" than ever attended any other exhibited in this city. The large tent was closely packed in the afternoon and well filled in the evening. Everbody seemed to be pleased and satisfied, and if the labor in the harvest field suffered a little, there was a budget of enjoyment to make good the loss. Of course, the renowned hippopotamus was the leading feature of the exhibition, but the bareback riding of Mr. Burt, and the double riding of Messrs. Rivers and Burt were unusually good, and gave the highest satisfaction. Bailey & Co. certainly get up an attractive exhibition, and it is no wonder that it attracts crowds wherever it goes.

A WILD NIGHT .- The Madison Journal. of yesterday says : "The wind blew fearfully all last night, shaking off fruit and breaking branches from the trees, and scattering all loose things about promiseuously."

NEW SILVER WARE .- Mr. J. A. Webb, corner of Main and Milwaukee street, has received a new stock of silver ware. As this is the only shape in which this kind of the precious metals now greets mortal eyes, the collection of Mr. Webb is worth examining as a matter of curiosity, aside from the beauty and finish of the articles so temptingly displayed:

LAWTON BLACKBERRY .- People who have become discouraged with the cultivation of the Lawton blackberry can see in a branch of a bush left at our office by Mr. J. D. Rexford, what quality and quantity of the fruit can be raised in this vicinity. We are indebted to Mr. R. for a fine contribution of the ripened fruit.

We have made the above Reduction in Prices with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in initiation of ours. The motal in them, from the tron casting to the smallest piece, is of poor quality. Their makers have not the means to de their work well. They are bid away in secret piaces, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extreative manufacturing establish month, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always table to got out of order, and are sure to cost considerable trouble and money to keep them in repair. The qualities to be looked for in a machine are: certainty of correct action at all rades of speed, simplicity of constructions, great durability and rapidity of operation, with the least labor. Machines to combine these essential qualities, must be made of the bestmed and families, must be made of the bestmed and families, and the made to perfection. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may noncern, will find that those having the above qualities not only work well at rapid as well as slove rates of speed, but last long in the finest possible working order. Our machines, ar made by us, will carn long in the finest, we made by the will interest in intuition of ours or not. In fact, they are changer than any others, whother in intuition of ours or not.
